

International SynBYSS Conference

Universitat Pompeu Fabra · June 8–11, 2026

In registering for the International SynBYSS Conference series, participants agree to the following participant expectations, code of conduct, and terms.

Presentation of Unpublished Results

The SynBYSS Conference aims to unite scientists at the cutting edge of synthetic biology. The conference further seeks to invest in the young, diverse, and international future of synthetic biology. As such, we strongly encourage all presenters to focus their presentations on unpublished and/or preprinted results.

Confidentiality

To encourage open science and the sharing of unpublished results, the SynBYSS conference committee believes it is important to maintain the confidentiality of unpublished results. The proceedings of this conference should be considered confidential communications between the presenters and the meeting participants. Participants must not photograph or record (audio or video) any presentation or poster without the explicit permission of the presenter. Participants agree to refrain from posting any images of presentations, poster or oral, or commentary about presentations, to social media platforms of any kind without the express permission of the presenter.

Non-Discrimination Statement

The SynBYSS Conference does not and shall not discriminate on the basis of race, color, religion (creed), gender, gender expression, age, citizenship, national origin (ancestry or English proficiency), disability, marital status, sexual orientation, political affiliation, or military status.

Code of Conduct

The SynBYSS Conference Committee seeks to create an open, welcoming, and respectful atmosphere in which all synthetic biologists feel safe and welcome to participate. Participants are expected to refrain from disrespectful, unprofessional, or illegal behavior, including sexual harassment, discrimination, or violence against any participant. The violation of local laws, or the policies of our co-host institutions, JCVI and US governments (e.g., NSF and NIH), will not be tolerated. Violation of these expectations may result in the removal of a participant from the conference. The relevant policies of our sponsor organization will be observed by the SynBYSS community.

Violations of the Policy

If any participant has concerns about violation of any of the above stated policies, these concerns may be brought to the organizing committee at synbyss@jcvl.org.

Federal Notification of Violations of this Policy

Individuals who have questions, concerns or complaints related to harassment are encouraged, in addition to contacting the conference organizers, to contact the HHS Office for Civil Rights (OCR). Information about how to file a complaint with HHS OCR (see OCR's webpage, Filing a Civil Rights Complaint, available here: <https://www.hhs.gov/ocr/complaints/index.html>). Filing a complaint with the conference organizer is not required before filing a complaint of discrimination with HHS OCR. Seeking assistance from the conference organizer in no way prohibits filing complaints with HHS OCR. Individuals can also notify NIH or NSF about concerns of harassment, including sexual harassment, discrimination, and other forms of inappropriate conduct at NIH or NSF-supported conferences. (see NIH's Find Help webpage, available here: <https://grants.nih.gov/policy-and-compliance/policytopics/harassment/find-help>).
